

Welcome to the SPEED Family Enrichment Program

We are so happy that you could join us!

The SPEED Family Enrichment Program (FEP) is a FREE Prenatal to 3 years early childhood program. Our goal is to increase the chance of future school success by providing child development information and support to families with infants and toddlers through home visiting and parent-child learning groups.

Research shows that high quality home visiting programs can:

- Help increase children's school readiness
- Enhance parenting skills
- Improve child health and development
- Improve maternal health
- Improve family economics
- Reduce child abuse and neglect

**We are currently
hosting all
programming through
virtual platforms
during the
Covid-19 Health Crisis**

Personal Learning Encounters

Parent & Child Learning Groups

Local and Regional Fieldtrips

Parent Workshops and Nutrition Classes

Please complete this [Form](#) to request a Developmental Screening or enroll.
